

## IOT EXPO 2016

Mitsubishi Paper Mills Ltd. will exhibit at the IOT EXPO 2016.

Exhibition: Internet of Things Technologies & Application Exhibition 2016 (IOT EXPO 2016)

Date: August 18-20, 2016

Place: Shenzhen Convention & Exhibition Center

Booth number: A150

URL: <http://eng.iotexpo.com.cn/>

Exhibition Content: “ThermoRewrite”

ThermoRewrite is a rewritable thermal recording material which is widely used as a key material of rewritable cards. By using ThermoRewrite, visual information can be renewed repeatedly. Therefore, latest and most up-to-date information can be shown on the card.

Major applications of ThermoRewrite are ID cards with validity date, Membership and Loyalty cards, Access control cards, Visitor Badges, etc.

Mitsubishi Paper Mills Ltd. is conducting demonstration of ThermoRewrite Technologies at the booth A150.
