

MITSUBISHI

GRACE

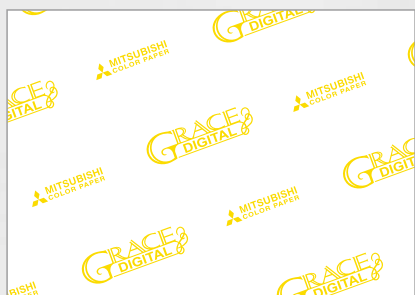

Color Paper

Mitsubishi Grace Color Paper “MG-1000” Series

Characteristics of “MG-1000” Series

Universal Application

“MG-1000” is the universal type color photographic paper which can be used for both analog and digital minilabs with excellent print quality.

Improvement in Whiteness

“MG-1000” will give you clear highlight with its improved whiteness.

Sharp and Brilliant Color Reproduction

With the new generation of “MG-1000” emulsion you will enjoy sharp and brilliant color reproduction for various scenes of pictures.

Stable Print Quality

Due to the improvement in latent image stability, “MG-1000” provides you with excellent and stable print quality.

Smoother Gradation

The ideal gradation balance of “MG-1000” generates a smoother and more natural print color.
