

CICNE 2017

Mitsubishi Paper Mills Limited will exhibit at the CICNE 2017.

Exhibition: The 10th Asia(Beijing) International Content Networking Exhibition
(CICNE2017)
Date: April 27-29, 2017
Place: China International Exhibition Center
Booth number: 8121
URL: <http://www.wlwexpo.net/>

Exhibition Content: “ThermoRewrite”

ThermoRewrite is a rewritable thermal recording material which is widely used as a key material of rewritable cards. By using ThermoRewrite, visual information can be renewed repeatedly. Therefore, latest and most up-to-date information can be shown on the card.

Major applications of ThermoRewrite are ID cards with validity date, Membership and Loyalty cards, Access control cards, Visitor Badges, etc.

Mitsubishi Paper Mills Limited is conducting demonstration of ThermoRewrite Technologies at the booth 8121.
