

IOTE 2017

Mitsubishi Paper Mills Limited will exhibit at the IOTE 2017.

Exhibition: 2017 The 9th China International Internet of Things Exhibition
(IOTE 2017)
Date: August 16-18, 2017
Place: Shenzhen Convention & Exhibition Center
Booth number: C56
URL: <http://eng.iotexpo.com.cn>

Exhibition Content: “ThermoRewrite”

ThermoRewrite is a rewritable thermal recording material which is widely used as a key material of rewritable cards. By using ThermoRewrite, visual information can be renewed repeatedly. Therefore, latest and most up-to-date information can be shown on the card.

Major applications of ThermoRewrite are ID cards with validity date, Membership and Loyalty cards, Access control cards, Visitor Badges, etc.

Mitsubishi Paper Mills Limited is conducting demonstration of ThermoRewrite Technologies at the booth C56.
