

11th China International Battery Fair

Mitsubishi Paper Mills Ltd. sets up a booth at 11th China International Battery Fair.

Date : June 18 (Wed)~June 20(Fri), 2014

Place : Shenzhen Convention and Exhibition Center

Booth number : 7B106, 7B107

Contents :

- Separator for Lithium Ion Battery, "NanoBase X"

"NanoBase X" is a separator made of polyester non-woven with ceramic coating, which is suitable for Lithium Ion Batteries. "NanoBase X" contributes to offer improved batteries with higher safety and longer cycle-life.

- Separator for Electric Double Layer Capacitor (EDLC) "NanoBase 2"

"NanoBase 2" is an advanced separator for EDLC with the optimized combination of fine synthetic fibers and cellulose nano-fibers, which contributes to make your EDLC to have better performance than the conventional materials.
